

Heat equation approach to Demailly regularity theorem

张振雷 首都师范大学

Demailly regularity theorem for Kahler currents is an important tool in complex geometry. In the talk, I will explain a heat equation approach to the theorem. Some applications to the complex Monge-Ampere equation will also be discussed.

报告人简介：张振雷，首都师范大学数学科学学院教授，博士生导师，国家杰出青年基金获得者，国家“万人计划”青年拔尖人才，北京市长城学者培养计划。
研究方向：几何与拓扑，主要从事里奇流（Ricci flow）的数学理论及其在微分几何中的相关应用问题的研究。
